

Mini CO Detector Tube

Carbon Monoxide is often described as the “Silent Killer”.
If it’s in YOUR home, it’s a threat to YOUR family!

CARBON MONOXIDE (CO) POISONING

CANADIAN SAFETY COUNCIL

The Canadian Safety Council estimates >50 Canadians die each year due to accidental CO poisoning, 8,000 go to the ER and 1,000 are hospitalized.

Don't become the family on the evening news!

MiniCO Dosimeter, D5091738, 10 per package

People most at risk:

- Infants
- Grandparents
- Those with chronic heart disease or breathing problems.

The Uniphos MiniCO Dosimeter tube is an inexpensive means to give you peace of mind.

Mini CO is not a replacement for the CO or smoke detectors you have in your home.
